

**Founded**

April 2004

**Management Team**

Weijie Yun  
Executive Chairman  
& Co-Founder

Samuel Sheng  
CEO & Co-Founder

Geoff Ribar  
Chief Financial Officer

Diana Jovin  
VP Corporate Marketing  
& Business Development

Don Stark  
VP Engineering

Ken Wang  
VP Worldwide Sales & General  
Manager, Telegent China

Stephen Zadig  
VP Operations

**Industry Recognition**

2010 CES Innovation Awards  
"Enabling Technology" Honoree  
(TLG2300)

2009 GSMA Mobile Asia Awards  
"Best Mobile TV or Video  
Service" (TLG1120)

2009 Global Semiconductor  
Alliance (GSA) Awards  
"Outstanding Financial  
Performance by a Private  
Semiconductor Company"

2009 CSI Awards "Best Terrestrial  
Wireless Solution" (TLG2300)

2009 Meffys Awards "TV and  
Video Service" Finalist  
(TLG1100/1120)

2009 Juniper Research FMA  
Awards "Gold Mobile TV"  
(TLG1120)

2007 GSMA Mobile Asia Awards  
"Most Innovative Wireless  
Device-centric Technology"  
(TLG1100)

**Who We Are**

Telegent Systems is a fabless semiconductor company that enables the reception of live, free-to-air analog and digital broadcast television in mobile handsets and other portable consumer devices. Telegent's television-on-a-chip solutions solve the long-standing technical challenges that have precluded mobile reception of analog broadcast TV, enabling manufacturers and operators to benefit from the convergence of broadcast TV with mobile and portable devices. Telegent's products are now the most widely sold broadcast television solutions for mobile handsets in the world.

**About Free-to-Air Mobile TV**

Free-to-air mobile TV provides consumers with mobile access to the free, live programming that they already view and enjoy on conventional television sets. Free-to-air mobile TV enables mobile and portable devices to receive analog and digital terrestrial broadcast standards such as NTSC, PAL, SECAM and DVB-T.

Analyst firm Forward Concepts estimates that analog mobile TV handsets account for more than half of all broadcast TV handset shipments in 2009. Combined, analog and digital free-to-air handsets represent 85 percent of total handset shipments.

**Our Solutions**

Telegent's solutions make television mobile, delivering both analog and digital broadcast reception with high sensitivity and picture quality, ultra-low power consumption and high integration, simplifying mobile and portable device design and manufacture. Products include:

- TLG1120 for handset and consumer electronics (NTSC, PAL, SECAM)
- TLG1121 for handset and consumer electronics (NTSC, PAL, SECAM)
- TLG2300 for PCTV (NTSC, PAL, SECAM, DVB-T)

**Market Momentum**

Telegent solutions can be found in a wide variety of handset models throughout Asia, Eastern Europe, Latin America, the Middle East and Africa. Leading operators in Latin America and Asia have included Telegent-enabled handsets in their mobile phone portfolios as a way to retain and attract subscribers and differentiate their product offerings.
